- (f) If abnormal trading activities are identified in respect of you by the China Connect Market Operators (via CID and BCAN), the China Connect Market Operators may in its discretion suspend trading by you or take such other actions as permitted by Stock Connect Rules, any applicable regulations and laws against you.

Appendix 2

Stock Connect Risk Disclosure and other information

Unless otherwise defined below, terms defined in the Terms and Conditions of Institutional Professional Investor Account (“Terms and Conditions”) and Appendix 1 shall have the same meaning in this Appendix.

This Appendix describes some of the key risk factors concerning Stock Connect based on Galaxy International Securities’ current understanding of the Applicable Requirements and the Mainland China stock market. Galaxy International Securities has not verified the accuracy of the Mainland China stock market requirements or rules. This Appendix is not exhaustive and does not disclose all the risks and other significant aspects of Northbound Trading. You should ensure that it/he/she understands the nature of Stock Connect and it/he/she should consider carefully (and consult its/his/her own advisers where necessary) whether trading in China Connect Securities is suitable for you in light of its/his/her circumstances. It is your decision to trade in China Connect Securities, but you should not trade in China Connect Securities unless it/he/she fully understands and is willing to assume the risks associated with Stock Connect.

Galaxy International Securities does not represent that the information set out in this Appendix is up-to-date or complete, nor does Galaxy International Securities undertake to update it from time to time. For further information, please refer to the materials published on the HKEx website, the SFC website, the SSE website and/or the SZSE website applicable to Stock Connect from time to time and other relevant sources. If in doubt, you should seek professional advice.

1. Pre-trade checking and enhanced pre-trade checking

Under the Mainland China law, a China Connect Market Operator may reject a sell order if an investor does not have sufficient available China Connect Securities in its account. In respect of a sell order of China Connect Securities that is not an SPSA order, SEHK will apply similar checking on all sell orders of Northbound Trading at the exchange participant level to ensure there is no overselling by any individual exchange participant (“Pre-Trade Checking”). Enhanced pre-trade checking applies in respect of an SPSA order (“Enhanced Pre-Trade Checking”).

Accordingly, you may be unable to execute Northbound sell orders due to Pre-Trade Checking (in respect of sell order that is not an SPSA order) or Enhanced Pre-Trade Checking (in respect of sell order that is an SPSA order) related requirements.

You may be unable to execute a sell order of China Connect Securities if:

- (a) (in respect of a sell order that is not an SPSA order) there has been a delay or failure for whatever reason in the transfer of the relevant China Connect Securities to Galaxy International Securities’ designated clearing account(s); or
- (b) (in respect of sell order that is an SPSA order) Galaxy International Securities considers that you do not (by the commencement of trading on the Trading Day on which you wish to execute a sell order or any other cut-off time specified by Galaxy International

Securities from time to time) hold sufficient available China Connect Securities in a relevant Special Segregated Account to cover a proposed SPSA order; and/or the required number of China Connect Securities will not be delivered from the Special Segregated Account as required by Galaxy International Securities on a settlement day to fulfil an SPSA order; or

- (c) if for any other reason Galaxy International Securities considers that there is or may be non-compliance with any Applicable Requirements.

Any risk, loss or cost resulting from non-compliance or potential non-compliance with Pre-Trade Checking (in respect of sell order that is not an SPSA order) or Enhanced Pre-Trade Checking (in respect of sell order that is an SPSA order), and/or the relevant Applicable Requirements shall be borne by you.

2. SPSA Orders – delivery versus payment

Notwithstanding that a delivery versus payment mechanism may be offered by SEHK or CCASS for SPSA orders, unless Galaxy International Securities agrees to pre-fund, freely transferable funds may only be credited by the relevant clearing bank to your account with the custodian or settlement agent, as applicable, in accordance with the CCASS operations and procedures after the settlement day upon which the delivery obligations in respect of such SPSA orders are required to be settled. Any risk, liability, loss, cost or expense resulting from this delay shall be borne by you.

3. Settlement arrangements

Northbound Trading follows the settlement cycle of A shares listed on the relevant China Connect Market. For settlement of China Connect Securities trades, ChinaClear will debit or credit the securities accounts of its participants (including HKSCC as clearing participant) on the Trading Day on which the order is made (“T day”) free of payment. Galaxy International Securities may have settlement arrangements in place that are different from the ChinaClear settlement arrangements. Unless Galaxy International Securities agrees to pre-fund, settlement of funds relating to such trading will be effected on the Trading Day following T day (“T+1 day”).

4. Quota on Northbound Trading

Relevant governmental or regulatory bodies may impose quotas on the trading of China Connect Securities from time to time depending on market conditions and readiness, the level of cross-boundary fund flows, stability of the markets and other factors and considerations. You should read the relevant details on such quota restrictions, including the quota limit, level of quota utilisation, balance of available quota and the applicable restrictions and arrangements published on the SEHK website from time to time to ensure it/he/she has the most updated information. Purchases of China Connect Securities through Stock Connect are currently subject to certain quota controls as detailed below. SEHK has absolute discretion to take all such actions, steps or measures as it considers necessary or appropriate to ensure or facilitate compliance with the relevant quota requirements or restrictions including, without limitation, the following:

- (a) restricting or rejecting buy orders for Northbound Trading;
- (b) suspending or restricting the access to or the use of all or any part of the trading services for Northbound Trading; and
- (c) amending the operational hours and related arrangements of Northbound Trading.

As a result, there is no assurance that a buy order for Northbound Trading can be successfully placed through Stock Connect. The daily quota caps the net buy value of cross-boundary trades under Stock Connect on each Trading Day ("Daily Quota"). The Daily Quota may change from time to time without prior notice and you should refer to the HKEx website and other information published by HKEx for up-to-date information.

Under the Stock Connect Rules, investors may sell their China Connect Securities regardless of whether there is a breach of the Daily Quota. If there is a suspension of buying China Connect Securities through Northbound Trading as a result of a breach of the Daily Quota, Galaxy International Securities will be unable to carry out any buy orders and any Instruction to buy submitted but not yet executed will be rejected. Please note that buy orders already accepted will not be affected by the Daily Quota being used up and will remain on the order book of the relevant China Connect Market Operator unless otherwise cancelled by the relevant exchange participants.

5. Restriction on day trading

Unless the SEHK otherwise determines, day (turnaround) trading is not permitted on the A share market in Mainland China. If you buy China Connect Securities on T day, it/he/she may only be able to sell such shares on or after T+1 day and as a result, you will be exposed to the market risk of holding such shares from T day to T+1 day. Due to the Pre-Trade Checking requirements, if you send to Galaxy International Securities Instructions to sell the China Connect Securities you bought on T day, Galaxy International Securities can only accept such Instructions on or after the applicable cut-off time (as notified to you by Galaxy International Securities from time to time) on T+1 day.

6. Trading methods and insider trading implications

Trading in China Connect Securities in Mainland China currently involves the use of fax machines for placing orders and orders must be transmitted by 7.30am (Mainland China time) on the morning of the desired trade. Information about your trade may be accessed and utilized by persons privy to the information to trade for their own benefit. Further, the trading arrangements may not be supported by technological checks and balances, resulting in a risk of human error and/or malfeasance.

7. Client errors

Neither Galaxy International Securities nor China Galaxy International shall be liable for any loss, damage or expense or consequential loss, damage or expense suffered by you as a result of any trading based on your Instructions. Galaxy International Securities will not be able to unwind any trade, and you should take note of the settlement arrangements in respect of China Connect Securities under Stock Connect, including but not limited to quota restrictions

which may affect the ability to mitigate the consequences of any error trades.

There is a general prohibition on off-exchange trading or transfers under the Stock Connect Rules, subject to certain exceptions (such as transfers effected to rectify error trades between an exchange participant and its clients in limited circumstances). Currently, there are no detailed rules or guidelines on permissible off-exchange transfers. In addition, SEHK may also suspend the right of a particular exchange participant to conduct non-trade transfers for error trade rectification if SEHK has reasonable cause to suspect or to believe that the exchange participant may abuse or may have abused such rectification arrangements or may have used such rectification arrangements to circumvent the prohibition against off-exchange trades or transfers. Galaxy International Securities is not obliged to effect any off-exchange transfer for rectification of error trades but has absolute discretion to determine whether to conduct such off-exchange transfer. Neither Galaxy International Securities nor China Galaxy International is liable for any losses which may result directly or indirectly from any error trade or any refusal to conduct a transfer to rectify an error trade.

8. Disclosure of interests

Under Mainland Chinese requirements, if you hold or control shares in a Mainland Chinese company which is listed on a Mainland Chinese stock exchange (a "Mainland Chinese Listco") up to a certain threshold as may be specified from time to time by a relevant Stock Connect Authority, you must disclose such interest within the period specified by the relevant Stock Connect Authority, and you must not buy or sell any such shares within the period specified by the relevant Stock Connect Authority. You must also disclose any substantial change in its/his/her holding as required by the relevant Stock Connect Authority. It is your responsibility to comply with any disclosure of interest rules from time to time imposed by the relevant Stock Connect Authorities and arrange for any relevant filings.

9. Short swing profit rule

Under Mainland Chinese requirements, the "short swing profit rule" requires a person to give up or return any profits made from purchases and sales in respect of China Connect Securities of a Mainland Chinese Listco if: (a) such person's shareholding in the Mainland Chinese Listco exceeds the threshold prescribed by the relevant Stock Connect Authority from time to time; and (b) the corresponding sale transaction occurs within the six months after a purchase transaction, or vice versa. You (and you alone) are responsible for complying with the Mainland Chinese's rules applicable to the "short swing profit rule".

10. Foreign ownership limits

Under Mainland Chinese requirements, there is a limit as to how many shares a single foreign investor is permitted to hold in a single Mainland Chinese Listco, and also a limit as to the maximum combined holdings of all foreign investors in a single Mainland Chinese Listco. Such foreign ownership limits may be applied on an aggregate basis (i.e. across both domestically and overseas issued shares of the same listed company, whether the relevant holdings are through Northbound Trading, qualified foreign institutional investor/RMB qualified foreign institutional investor regime or other investment channels). Where the aggregated foreign ownership of a single Mainland Chinese Listco reaches a designated percentage, HKEx (or its

relevant subsidiary) will suspend accepting any purchase order of the relevant China Connect Securities through Stock Connect until the percentage of foreign ownership of such Listco is reduced to a certain level.

It is your responsibility to comply with all foreign ownership limits from time to time imposed by Applicable Requirements. You may also be required to report to the relevant authorities when a designated percentage of ownership is reached. If Galaxy International Securities becomes aware that you have breached (or reasonably believe that you may breach upon execution of further buy orders) any foreign ownership limits, or if Galaxy International Securities is so required by any Stock Connect Authority (including without limitation to, as a result of a forced-sale notice issued by a China Connect Market Operator), you authorise Galaxy International Securities to sell any China Connect Securities in order to ensure compliance with all Applicable Requirements. However, Galaxy International Securities is not obliged to do so and you should not rely on such action by Galaxy International Securities to ensure your compliance with any Applicable Requirements.

11. China Connect Securities eligible for Northbound Trading

SEHK will include and exclude securities as China Connect Securities based on the prescribed criteria under the Stock Connect Rules. You will only be allowed to sell a China Connect Security and be restricted from further buying, if (i) the China Connect Security subsequently ceases to be a constituent stock of the relevant indices, and/or (ii) the China Connect Security subsequently moves to the risk alert board, and/or (iii) the corresponding H share of the China Connect Security subsequently ceases to be traded on SEHK, and/or (iv) other criteria prescribed in SSE China Connect Rules and SZSE China Connect Rules.

According to the Operator Listing Rules, if any China Connect Market-listed company is in the delisting process, or its operation is unstable due to financial or other reasons such that there is a risk of being delisted or exposing investors' interest to undue damage, the China Connect Market-listed company will be earmarked and traded on the risk alert board. Any change to the risk alert board may occur without prior notice. For details concerning the risk alert board, please refer to the Operator Listing Rules and the provisional trading arrangement on the risk alert board of China Connect Market Operator.

12. No off-exchange transfers

Galaxy International Securities and China Galaxy International may not provide any off-exchange services relating to the transfer in any China Connect Securities otherwise than through the Stock Connect, unless otherwise provided by a Stock Connect Authority (such as post-trade allocation of shares by a fund manager across the funds and/or sub-funds it manages, stock borrowing and lending of China Connect Securities which are eligible for covered short selling and with a tenor of no more than one month and any other situations specified by the China Connect Market Operator and ChinaClear).

13. Offshore RMB exchange rate risks

Similar to other foreign currencies, the exchange rate of Offshore RMB may rise or fall. There is no guarantee that RMB will not depreciate. The exchange rate of Offshore RMB will be affected by, amongst other things, foreign exchange control imposed by the Mainland Chinese

central government from time to time (for example, there are currently restrictions on the conversion of RMB into other currencies). The exchange rate of Offshore RMB may fluctuate as a result of market conditions and economic factors.

In addition, RMB is currently subject to foreign exchange control and restrictions by the Mainland China central government. There is currently a limited pool of RMB outside Mainland China. Should the Mainland China central government tighten its foreign exchange control over the cross-border movements between onshore RMB and Offshore RMB, the liquidity in RMB is likely to be adversely affected.

If RMB is not your home currency, you may have to convert its/his/her home currency into RMB when investing in China Connect Securities and vice versa for any payments in RMB from transactions under the China Connect Securities. You will be incurring currency conversion costs (being the spread between buying and selling of Offshore RMB) and subject to exchange rate fluctuation risks in any such currency conversion, which may adversely affect the market value of China Connect Securities.

14. Placing orders

Galaxy International Securities only accepts orders for Northbound Trading that comply with the Applicable Requirements. Currently, only limit orders with a specified price are allowed for China Connect Securities pursuant to the Applicable Requirements, whereby buy orders may be executed at or lower than the specified price and sell orders may be executed at or higher than the specified price. Market orders will not be accepted.

15. Price limits for China Connect Securities

China Connect Securities are subject to a general price limit of $\pm 10\%$ based on the previous Trading Day's closing price (and $\pm 5\%$ for stocks under risk alert). The price limit may be changed from time to time. All orders in respect of China Connect Securities must be within the price limit. Any orders with a price beyond the price limit are rejected by the relevant China Connect Market Operator.

16. Dynamic price check

To prevent mischievous behaviour towards the use of the Daily Quota, SEHK has put in place a dynamic price checking for buy orders. Buy orders with input prices lower than the current best bid (or the last traded price in the absence of current best bid, or the previous closing price in the absence of both current best bid and last traded price) beyond a prescribed percentage will be rejected.

During the opening call auction session, the current bid (or the previous closing price in the absence of the current bid) will be used for checking. During the closing call auction of SZSE, the current bid (or last traded price in the absence of the current bid) will be used for checking. Dynamic price checking will be applied throughout each Trading Day, from the 5-minute input period before the start of an opening call auction session until market close of the China Connect Market. SEHK has set the dynamic price checking at 3% during the initial phase of Stock Connect. Such price checking percentage may be adjusted from time to time subject to market conditions.

17. Restrictions on selling China Connect Securities

Investors are prohibited from using China Connect Securities purchased through Stock Connect to settle any sell orders placed through channels other than Stock Connect. Accordingly, there may be a limited market and/or lower liquidity for China Connect Securities purchased through Stock Connect (as compared to the same shares purchased through other channels).

In addition, there are restrictions on any entitlement security received by you in respect of China Connect Securities. If such entitlement securities are in the form of Special China Connect Securities, they are only eligible for sale through Stock Connect (i.e. they cannot be purchased by other parties through Stock Connect). If such entitlement securities are not in the form of Special China Connect Securities, they are not eligible for trading through Stock Connect (i.e. they are only available for trading in the relevant stock market in Mainland China). Accordingly, there is a risk of low (or no) liquidity for such shares received by way of entitlement.

If China Connect Securities involve odd lots, they cannot be purchased through Stock Connect. A sale of China Connect Securities involving odd lots is allowed if the sale order of such China Connect securities relates to the sale of all, but not part, of the odd lots held in respect of such China Connect Securities. It is common that a board lot buy order may be matched with different odd lot sell orders, resulting in odd lot trades. Accordingly, there may be a limited market and/or lower liquidity for China Connect Securities involving odd lots purchased through Stock Connect.

18. Taxation

China Connect Securities traded under Stock Connect currently enjoy a temporary exemption from Mainland Chinese capital gain tax and Mainland Chinese business tax. It is uncertain when such exemptions will expire and whether other Mainland Chinese Taxes will be applicable to trading of China Connect Securities under Stock Connect. Dividends derived from China Connect Securities are subject to Mainland Chinese withholding tax. Mainland Chinese stamp duty is also payable for transactions in China Connect Securities under Stock Connect. You are fully responsible for any Taxes in respect of China Connect Securities, and agrees to indemnify Galaxy International Securities on demand from and against all Taxes which Galaxy International Securities may incur or be subject to in connection with any China Connect Securities which you hold, trade or otherwise deal in. Neither Galaxy International Securities nor China Galaxy International assumes any responsibility for advising on or handling any tax issues, liabilities and/or obligations in connection with Stock Connect, and neither Galaxy International Securities nor China Galaxy International will provide any service or assistance in this regard. Prior to investing in China Connect Securities, you are strongly urged to consult its/his/her own tax advisers with respect to the possible tax consequences to it/him/her of such investment since such tax consequences may differ in respect of different investors.

19. Hong Kong Client Securities Rules

As a general rule, investors participating in Northbound Trading do not enjoy the full protection afforded under the Securities and Futures Ordinance and its related subsidiary

legislation. In particular, as the China Connect Securities traded through Stock Connect are not listed or traded on SEHK, you will not have protection under the Securities and Futures (Client Securities) Rules made by the SFC under section 148 of the SFO as amended from time to time, unless otherwise specified by the SFC or any other relevant Stock Connect Authority.

20. Investor Compensation Fund

Trading in China Connect Securities does not enjoy the protections afforded by the Investor Compensation Fund established under the Securities and Futures Ordinance. Accordingly, unlike the trading of SEHK-listed securities, you will not be covered by the Investor Compensation Fund in respect of any loss it/he/she may sustain by reason of a default by any SFC licensed or registered person.

21. Ownership of China Connect Securities

China Connect Securities are uncertificated and are held by HKSCC for its account holders. Physical deposit and withdrawal of China Connect Securities are not available under the Northbound Trading.

Under current Mainland China regulations, China Connect Securities will be recorded in a nominee account opened by HKSCC with ChinaClear and your title or interests in, and entitlements to, China Connect Securities (whether legal, equitable or otherwise) will be subject to Applicable Requirements, including laws relating to any disclosure of interest requirement or foreign shareholding restriction. This is a complicated area of law and you should seek independent professional advice.

22. Disclosure of information and publication of trade information

The SEHK may require Galaxy International Securities to provide information on your profile, and the type and value of its/his/her orders in relation to Northbound Trading of China Connect Securities and the trades which Galaxy International Securities executed for it/him/her, at such intervals and in such form as SEHK may specify from time to time for purposes of the publication, dissemination or public distribution of aggregated information in respect of China Connect Securities trades under Stock Connect, trading volumes, investor profiles and other related data.

23. No manual trade or block trade

There is no manual trade facility or block trade facility for Northbound Trading.

24. Amendment of orders and loss of priority

Consistent with the current practice in Mainland China, if an investor engaged in Northbound Trading wishes to amend an order, the investor must first cancel the original order and then input a new one. Accordingly, order priority will be lost and, subject to the restrictions on the balance of the Daily Quota, any subsequent order may not be filled on the same Trading Day.

25. Difference in Trading Day

Stock Connect is open for trading only when (a) each of HKEx and the relevant China Connect Market is open for trading; and (b) banking services are available in both Hong Kong and Mainland China on the corresponding money settlement days. If any of the exchanges is not open or if the banks in either Hong Kong or Mainland China are not open for money settlement business, you will not be able to conduct any Northbound Trading. You should take note of the days on which the Stock Connect operates and decide according to its/his/her own risk tolerance capability whether or not to take on the risk of price fluctuations in China Connect Securities during the time when the Stock Connect is not available for Northbound Trading.

26. Operational hours

SEHK has absolute discretion to determine from time to time the operational hours of the Stock Connect, and will have absolute discretion to change the operational hours and arrangements of the Stock Connect at any time and without advance notice whether on a temporary basis or otherwise. Neither Galaxy International Securities nor China Galaxy International shall be under any obligation to inform you of any such determinations by SEHK as to the operational hours of the Stock Connect. You should be aware of the risk of price fluctuations in China Connect Securities during the time when the Stock Connect is not available for Northbound Trading.

27. Risk of ChinaClear default

ChinaClear has established a risk management framework and measures that are approved and supervised by the CSRC. Pursuant to the General Rules of CCASS, if ChinaClear (as the host central counterparty) defaults, HKSCC may, in good faith, seek recovery of the outstanding China Connect Securities and monies from ChinaClear through available legal channels and through ChinaClear's liquidation process, if applicable. HKSCC will in turn distribute the China Connect Securities and/or monies recovered to clearing participants on a pro-rata basis as prescribed by the relevant Stock Connect Authorities. Galaxy International Securities in turn will be distributing China Connect Securities and/or monies only to the extent recovered directly or indirectly from HKSCC. Although the likelihood of a default by ChinaClear is considered to be remote, you should be aware of this arrangement and of this potential exposure before engaging in Northbound Trading.

28. Risk of HKSCC default

Galaxy International Securities' ability to provide the services under this Supplement is subject to the due performance by HKSCC of its obligations. Any action or inaction of the HKSCC or a failure or delay by the HKSCC in the performance of its obligations may result in a failure of settlement, or the loss, of China Connect Securities and/or monies in connection with them and you may suffer losses as a result. Neither Galaxy International Securities nor China Galaxy International is responsible or liable for any such losses.

29. Company announcements on corporate actions

Any corporate action in respect of China Connect Securities is announced by the relevant issuer through the relevant China Connect Market Operator's website and certain officially appointed newspapers. HKSCC also records all corporate actions relating to China Connect Securities in CCASS and informs its clearing participants of the details via the CCASS terminals

as soon as practicable on the announcement date. Investors engaged in Northbound Trading may refer to the relevant China Connect Market Operator's website and the relevant newspapers for the latest listed company announcements or, alternatively, the HKEx website's China Stock Markets Web (or such other replacement or successor web-page from time to time) for corporate actions in respect of China Connect Securities issued on the previous Trading Day. You should note that SSE-listed issuers or SZSE-listed issuers publish corporate documents in Chinese only, without any official English translation.

In addition, pursuant to the General Rules of CCASS, HKSCC endeavours to collect and distribute cash dividends relating to China Connect Securities to clearing participants in a timely manner. Upon receipt of the dividend amount, HKSCC will arrange to distribute it to the relevant clearing participants on the same day, to the extent practicable.

Following existing market practice in Mainland China, investors engaged in Northbound Trading are not entitled to attend shareholder meetings by proxy or in person, unlike the current practice in Hong Kong in respect of SEHK-listed shares.

Galaxy International Securities does not verify or warrant the accuracy, reliability or timeliness of any company announcements of corporate actions, and neither Galaxy International Securities nor China Galaxy International accepts any liability (whether in tort or contract or otherwise) for any Loss arising from any errors, inaccuracies, delays or omissions or any actions taken in reliance thereon. Galaxy International Securities expressly disclaims all warranties, expressed or implied, as to the accuracy of any company announcement or as to the fitness of the information for any purpose.

30. Rights issuance

Where you receive shares or other types of securities from an issuer of a China Connect Security as entitlements, you should note that you may not be able to buy or sell such entitlement security through the Stock Connect in certain circumstances (for example, if such entitlement security is listed on a China Connect Market but is not traded in RMB or if such entitlement security is not listed on a China Connect Market).

31. General market risks associated with investing in China Connect Securities

Investing in China Connect Securities involves special considerations and risks, including without limitation greater price volatility, less developed regulatory and legal framework, economic, and social and political instability of the stock market in Mainland China. You should also note that the China Connect Market Operator's trading rules, listing rules, and other applicable laws and regulations may be published in Chinese only, without any official English translation.

32. Risks associated with trading of ChiNext Shares and STAR Shares

The trading of ChiNext Shares and STAR Shares is subject to the risks associated with the SZSE ChiNext market and the SSE STAR market, including but not limited to such risks arising from the following: (a) volatility and overvaluation of the share prices; (b) the less stringent requirements on profitability and share capital of the ChiNext market and the STAR market (compared to the main board markets in Mainland China); (c) given the technological focus of

the companies listed on the ChiNext market and the STAR market, such companies are more susceptible to technical failures in their respective business areas; and (d) conventional valuation methods may not be entirely applicable to companies listed on the ChiNext market and the STAR market due to the high-risk nature of the relevant industries.

Only Institutional Professional Investors are allowed to place orders with Galaxy International Securities to buy or sell ChiNext Shares and STAR Shares which are accepted as China Connect Securities (other than Special China Connect Securities which are eligible for sell orders only) through the use of Stock Connect.

33. Warning statements and termination of service

Galaxy International Securities may be required by SEHK and/or a China Connect Market Operator to issue to you, either verbally or in writing, a warning statement and terminate the provision of Northbound Trading services to you for a period which SEHK and/or the China Connect Market Operator may prescribe.

34. Novelty of Stock Connect

Stock Connect is an unprecedented scheme launched jointly between the China Connect Market Operators and HKEx to facilitate cross-border trading of China Connect Securities through HKEx. Trading in China Connect Securities under Northbound Trading is subject to all Applicable Requirements. Any change in the Applicable Requirements may have an adverse impact on the trading of China Connect Securities. Such impact may adversely affect your investment in China Connect Securities. In the worst case scenario, you may lose a substantial part of its/his/her investments in China Connect Securities under Stock Connect.

Galaxy International Securities provides trading services based on the Stock Connect market system which is operated by the relevant China Connect Market Operator. Galaxy International Securities is not responsible for any delay or failure caused by the Stock Connect market system and investors accept all risks arising from trading China Connect Securities through the Stock Connect market system. Neither Galaxy International Securities nor China Galaxy International shall be responsible or held liable for any loss or damage directly or indirectly suffered by you arising from or in connection with the Stock Connect or the China stock connect system for receiving and routing Stock Connect orders to a Stock Connect market system for automatic matching and execution, through Northbound Trading.

35. Margin trading

Subject to certain conditions prescribed by the Stock Connect Authorities, Hong Kong and overseas investors may conduct margin trading in China Connect Securities determined by the relevant Stock Connect Authorities to be eligible for margin trading ("Eligible Margin Trading Securities"). HKEx will from time to time publish a list of Eligible Margin Trading Securities. Each of the China Connect Market Operators may suspend margin trading activities in any specific A Share if the volume of margin trading activities in such A Share exceeds a threshold determined by such China Connect Market Operator and resume margin trading activities when the volume of margin trading activities drops below a prescribed threshold. Where SEHK is notified by a China Connect Market Operator that a suspension or resumption involves a security on the list of Eligible Margin Trading Securities, HKEx will disclose such information

on its website. In such circumstances, any margin trading in the relevant China Connect Security shall be suspended and/or resumed accordingly. Each of the China Connect Market Operators has reserved the right to require margin trading orders to be flagged as margin trading orders when routed to Stock Connect. Neither Galaxy International Securities nor China Galaxy International shall have any obligation to update you in respect of the list of Eligible Margin Trading Securities or any restrictions or suspensions in respect of margin trading from time to time.

36. Limits on Short Selling

Hong Kong and overseas investors are currently prohibited from naked Short Selling China Connect Securities.

Covered Short Selling of China Connect Securities is permitted subject to certain requirements in the Stock Connect Rules. However, Galaxy International Securities will not facilitate covered Short Selling of China Connect Securities and/or any Uptick Long Sale. You shall be fully responsible for understanding and complying with the Short Selling requirements in effect from time to time and for any consequences of non-compliance.

37. Stock Borrowing and Lending

Stock borrowing and lending are permitted for the eligible China Connect Securities as specified by the China Connect Market Operators for the purposes of (a) covered short selling, (b) satisfying the Pre-Trade Checking requirement and (c) in any other circumstances as SEHK or the China Connect Market Operators may specify from time to time. The China Connect Market Operators will determine a list of eligible China Connect Securities for stock borrowing and lending. Stock borrowing and lending of eligible China Connect Securities will be subject to restrictions set by SEHK and the China Connect Market Operators, including but not limited to the following:

- (a) stock borrowing and lending agreements for the purpose of covered short selling shall have a duration of not more than one month;
- (b) stock borrowing and lending agreements for the purpose of satisfying the Pre-Trade Checking requirement shall have a duration of not more than one day (and roll-over is not permitted);
- (c) stock lending will be restricted to certain types of persons to be determined by the China Connect Market Operators; and
- (d) stock borrowing and lending activities will be required to be reported to SEHK.

Only certain persons are eligible to lend China Connect Securities in stock borrowing and lending arrangements concerning China Connect Securities.

Galaxy International Securities will be required to file a monthly report to SEHK providing details of its stock borrowing and lending activities with respect to China Connect Securities. This may include (amongst others) details of the borrower, lender, amount of shares borrowed/lent, amount of shares outstanding and date of borrowing/returning.

You should refer to the relevant provisions from time to time governing stock borrowing and lending of China Connect Securities under the Applicable Requirements. Neither Galaxy International Securities nor China Galaxy International shall have any obligation to update you in respect of any change to the relevant Applicable Requirements.

38. Risks associated with the Circuit Breaker mechanism

The execution of trades in China Connect Securities is subject to the Stock Connect Rules including the Circuit Breaker Provisions. Imposition of a Circuit Breaker on any China Connect Market Trading Day will result in the suspension of the execution of trades through the China Connect Market system for such period or periods as set out in the Circuit Breaker Provisions. Further, the lifting of a Circuit Breaker during a continuous auction session of any China Connect Market Trading Day may result in trades being executed through call auction.

Unless otherwise determined by the SEHK, where the Circuit Breaker Provisions allow orders in respect of China Connect Securities to be cancelled during the period when a Circuit Breaker is in effect, Galaxy International Securities may input order cancellation requests through the Stock Connect during such period as usual.

Notwithstanding this, no Stock Connect order is regarded as cancelled unless and until a cancellation confirmation has been issued by the relevant China Connect Market system, and neither the SEHK nor its subsidiaries shall have any liability in the event that a Stock Connect order which Galaxy International Securities has required to be cancelled is not cancelled for any reason whatsoever.

39. Provision of Client Identification Data

For Northbound Trading, from the Investor ID Model Effective Date, you are required to provide Client Identification Data and keep such information updated for the Stock Connect Authorities to collect the Northbound Trading investors identification information and to track their trade orders on a real-time basis. It is your obligation to keep your Identification Data accurate and up-to-date.

You cannot place a trade order until the completion of account opening and/or successful update of its CID from Galaxy International Securities. Notwithstanding that you have submitted its CID, a trade order of you may still be rejected if the CID provided by client and BCAN have not yet been submitted to and/or approved by SEHK, the China Connect Market Operator or other Stock Connect Authorities at the time of such trade order, and Galaxy International Securities shall not be liable to you for any failure or delay in submitting such CID and BCAN to SEHK, the China Connect Market Operator or other Stock Connect Authorities. If you are an individual client, and does not provide the necessary consents and authorizations (both written and prescribed) in relation to the collection, storage, use, disclosure and transfer of his or her CID and/or BCAN, or your BCAN or BCAN-CID mapping are otherwise invalid or deficient, Galaxy International Securities may, in its own discretion, place Northbound Trading sell orders in relation to such BCAN, but no Northbound Trading buy order is allowed in relation to such BCAN. If abnormal trading activities are identified in respect of you by the China Connect Market Operators, the China Connect Market Operators may in its discretion suspend trading with you or take such other actions as permitted by Stock Connect Rules, any

applicable regulations and laws against you. You are liable for any Loss incurred in connection with any such actions taken by SEHK, the China Connect Market Operator, or other Stock Connect Authorities.

40. Acknowledgement

You acknowledges and accepts that since Galaxy International Securities does not provide any Short Selling or Stock Borrowing and Lending services in respect of the China Connect Securities, relevant clauses in the Terms and Conditions (including but not limited to clauses 36 and 37 of this Supplement) do not apply.

Risk of Margin Trading

- 7.1. The risk of loss in financing a transaction by deposit of collateral is significant. You may sustain losses in excess of cash and any other assets deposited as Collateral. Market conditions may make it impossible to execute contingent orders, such as "stop-loss" or "stop limit" orders. You may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made within the prescribed time, your Collateral may be liquidated without your consent. Moreover, you will remain liable for any resulting deficit in your account and interest charged on your account. You should therefore carefully consider whether such a financing arrangement is suitable in light of your own financial position and investment objectives.

Risk of Providing an Authority to Repledge Securities Collateral

- 7.2. There is risk if you provides Galaxy International Securities with an authority that allows it to

apply your Securities or Collateral pursuant to any securities borrowing and lending agreement, repledge the Collateral for financial accommodation or deposit your securities collateral as collateral for the discharge and satisfaction of its settlement obligations and liabilities.

- 7.4. You are not required by any law to sign these authorities. But an authority may be required by Galaxy International Securities. Although Galaxy International Securities is responsible to you for Securities or Collateral lent or deposited under the authority, any default by it could result in the loss of your Securities or Collateral. A cash account not involving securities borrowing and lending is available from most dealers including Galaxy International Securities. If you do not require margin facilities or do not wish Securities to be lent or pledged, you should not provide the above authorities and should ask to open this type of cash account.
